I-10 eastbound Cassat Avenue off-ramp detour scheduled Thursday night

Jacksonville – The I-10 eastbound off-ramp to Cassat Avenue is scheduled to close tomorrow night from 9:30 p.m. to 5 a.m., weather permitting, to set a temporary concrete barrier wall for the I-10 widening project. The detour is Lane Avenue south to Normandy Boulevard.

Florida Department of Transportation (FDOT) began construction in January 2015, to add a lane along the inside median of eastbound I-10 from east of I-295 to west of the Ellis Rd overpass, and an outside auxiliary exit lane to Cassat Avenue to improve traffic flow from the I-295 interchange. The project also includes widening the shoulders along westbound I-10 from east of Lane Avenue to east of I-295. In addition, the nearly one and a half mile-long project includes major drainage reconstruction and widening of the overpasses over Lane Avenue and Ellis Road. Other project enhancements include installing new guardrails, reconstructing existing concrete pavement and replacing overhead signs and lighting.

Superior Construction Company Southeast of Jacksonville is the contractor. The \$8.5 million project is expected to be complete in spring 2016.
